

Want to be a member of the Open Innovation Lab? Finish the task to prove your capability!

**Task Description:**

Starting point: University MTR Station.  
 Ending point: Rm 831(8/F), Ho Sing-Hang Engineering Building.  
**Just find the way to get you there!**

**Hints:**

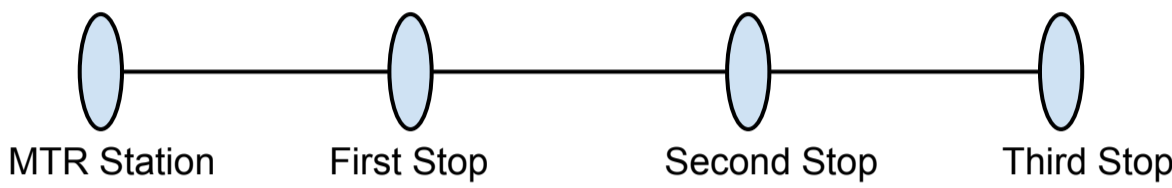

**Option 1 (Highly Recommended!):**

- When you exit at Exit A or Exit C, there will be a bus station on your right hand side. **Take it!** (If you exit at Exit D, bus station is on your left hand side. You need to walk around 100 meters.)
- Bus station is something like:(every 15 mins)

There will be a letter “N” right before the driver on the bus.

- Where to get off? The station name is **Sir Run Run Shaw Hall**, but no one will tell you the station name when it arrives. So **Remember** if bus departs at 7pm, 8pm or 9pm, get off at the third stop;else, get off at the second stop.

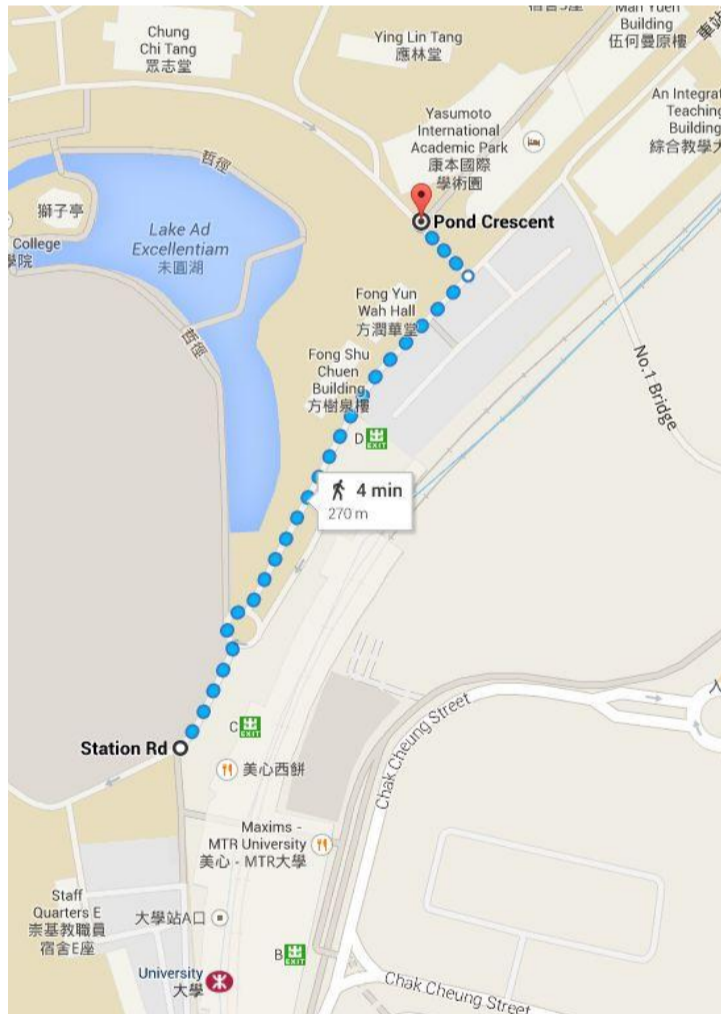

- Then you are at the Red point. Follow the red line to the South. No roads are shown on the map....but there is indeed a road....When you see a footbridge, congratulations! Cross it and you are done! Find the lift to Room 831.

**Option 2: (If you insist....)**

- If you miss the bus or you want to hike, follow the map to Yasumoto International Academic Park.

- There will be an escalator (not the lift). Take it all the way up.
- Follow the map to walk to William MW Mong Engineering Bldg.

- Last step, take the lift to 9/F, and get out from Willam MW Mong Engineering Bldg, you are done!
